Hi Rachael,

Now that Second Unit has wrapped, I just wanted to take a moment to properly thank you for the incredible work you put into making it all happen.

This was not an easy unit to navigate, and you handled it with real strength and precision. Stepping in and taking ownership the way you did, making the schedule work as if you had been with us throughout prep, was no small feat. You not only kept things on track, but managed to integrate two reshoot days within our 30 day schedule and still brought us to an early wrap (saving a shooting day) . That's seriously impressive.

Your leadership was steady, sharp, and solution driven throughout. You created clarity where there could have been chaos, and that made all the difference for everyone involved. The entire crew genuinely enjoyed working with you and felt supported under your direction.

It was a real pleasure working alongside you, and I truly hope our paths cross again on the next one.

Thank you, thank you, thank you.

Warm regards,

Vessy
