Open Driver's Licence

PROFILE

Working in film and TV across decades, I have built the foundations of strong production practice; excellent time management skills and interpersonal skills with a high attention to detail. I love working as part of a team and during my time at the ABC working on Gardening Australia, I have provided support to Editors and Producers, managed edit schedules, media workflows and network deliverables. After seven years in the role, I'm ready for the next challenge and I'm eager to bring my experience, reliability and strong work ethic to drama and feature film production.
