PROFESSIONAL SUMMARY

Hi! I'm Oliver Rock.

I'm a 24 year old looking to break into the film industry and my hobbies are Video games, Board games and creative writing. I've found myself wanting to work in film due to becoming captivated by the team member roles. Runner, AD, Lighting Assist, Gaffer Assist (Best Boy), Set Dec, you name it!

I have found the motivation I've been needing and am pushing forward to advance myself and grow into a better, more capable person.

What is this motivation? Well it might be too long for this resume, but maybe we could talk about it in person? I look forward to hearing from and hopefully working with you!

INDUSTRY EXPERIENCE

General Team Member and Solo On-Site Operator

Sep 2024 – Present
Gold Coast, QLD

Skylighter Fireworks

- Joined to increase knowledge of pyrotechnics to further film skillset
- Has had experience safely setting up and operating fireworks displays and flame pillars

Digital Editor and Filmographer

Dec 2023 – Jan 2025
Gold Coast, QLD

Andy's Services

- Edited a variety of digital content for advertising
- Provided the necessary environment to polish my fundamental editing skills
- Also helped me refine my client communication skills as I worked hand in hand with them to meet their specifications

Content Division - Digital Editor

Aug 2025 – Present

HDR Dev Team

- I help to create highlight reels to promote a community made game mod
- I am responsible for Audio Balancing and Colour Correction, of which shows clear improvements from my work at Andy's Services.
- Meeting a deadline while being responsible for my own work has helped me train my discipline.
- It also teaches me to improvise and learn new skills, as many of the clips come to me with mangled audio or bizarrely washed out colours
- It is a job that only needs doing about once a month, so it isn't a huge commitment

Playlist of Projects I've Worked on
