

LEO SAYSORN

Emerging Accounts Department Crew Member

PROFESSIONAL PROFILE

Business graduate with practical production experience across feature films, television series and reality since 2022. Having worked in Catering; Craft Services, Unit and Production support roles, I have developed a strong understanding of working under pressure, professionalism on set and confidentiality.

I am now seeking an entry-level opportunity within a Production Accounts Department as an Accounts Assistant or Accounts Attachment, where I can build a long-term career in film accounting. Alongside my screen career I am completing studies in Mortgage Broking to establish a small side business between productions, allowing me to remain available for ongoing work within the film industry.
