Kia Ora! I'm Sophie. I am an emerging Assistant Director from NZ with a Bachelor of Creative Media Production, majoring in Producing and Directing. I have 4 years of production and onset experience, and am pursuing an Assistant Directors or PA role in the Film/TV industry, as I thrive in hardworking, hands-on, creative and collaborative environments. I am currently based in the Gold Coast. I have skills in producing, directing, writing, and costuming, so I am a multi-faceted crew member who can support multiple departments, and has a broad understanding of the ecosystem of filmmaking. I am looking for a role where my skills may be applicable, particularly in the AD or Production departments, and I can connect with an awesome team of people. I have experience with acclaimed Australian production companies, such as Bazmark INQ and Speech&Drama Pictures.
